Petainer Overview

About us:

Petainer offers a wide range of lightweight, sustainable PET packaging solutions to help you grow your business and reduce your carbon footprint. We have over 35 years of experience designing and manufacturing high-quality, cost-efficient products with circularity at their core; while meeting the highest industry standards for safety and product protection.

Petainer product range:

- PET water cooler bottle: Compatible with standard filling and washing lines, BPA-free and reusable.
- PET keg: From manual to automatic filling, it's the most advanced plug-and-play solution.
- One way bottle: A wide range of standard bottles suitable for your product.
- Refillable bottle: For carbonated beverages and water products, refill, reuse and reduce.
- Preform: Up to 100% recycled content.

Present in key markets across USA, Europe, and Asia, offering the best technical and commercial experience.

Petainer works with the world's leading brands, positioning itself as a leader in sustainability in the market.
